

Two announcements, *three names.*

September 30, Quantico: a four-star command for drones and a 120-day study of future war.

Two of the three sell to the Department.

A rocket maker, a weapons maker, a former Speaker, asked
what the next war will need.

Elon Musk

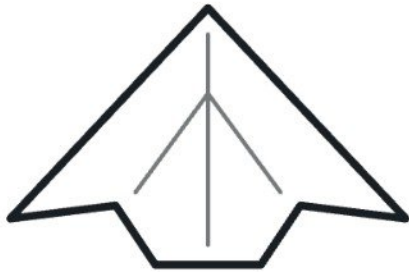

Palmer Luckey

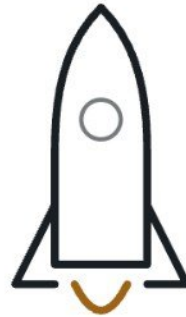

Newt Gingrich

A drone, a rocket, a robot, a satellite.

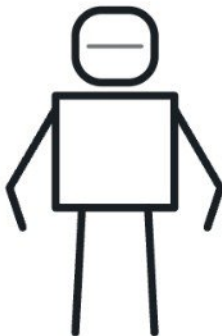

Anduril, SpaceX, Tesla, SpaceX. The companies two
co-directors lead.

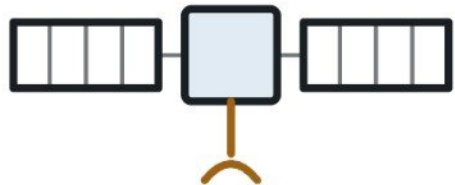

THE DRONE · ANDURIL

THE ROCKET · SPACEX

THE ROBOT · TESLA

THE SATELLITE · SPACEX

Arsenal-1, south of Columbus.

Five million square feet in Pickaway County. The first Ohio-built Fury left the line July 27.

The memos, the photographs, the transcript.

Read the record, every source linked.
